

AFTERMARKET PARTS

ITS provides a complete solution of sales, service and support for all equipment purchased.

ITS is your business partner and our goal is to help maintain equipment and keep production running at maximum efficiency. We stock replacement parts for all of our equipment and provide technical support from factory trained technicians.

ITS has made ordering parts very convenient with the addition of our online parts store. Most parts ship from ITS within 24-48 hours.

To place a parts order:

web: internationalthermalsystems.com/shop

Email: parts@itsllcusa.com

Phone: 414.672.7700

Fax: 414.672.7760

AFTERMARKET SERVICES

Partnership Philosophy: ITS approaches each project like a partnership.

ITS is committed to providing the best engineering, manufacturing, service and support in the industry. Every customer is our business partner and our goal is growth for all of our partners. To help achieve this, the ITS Aftermarket Services department is growing. We are expanding the division with more factory trained technicians. We offer many services including complete preventative maintenance programs to keep equipment running at maximum efficiency.
